Dr Andrew Osborne
East Brunswick Medical Centre

Dear Dr Osborne,

**Re: Mr Michael Debinski**
**DOB: 1956-04-11**
**Address: 34 Delbridge Street, FITZROY NORTH VIC 3068**

I thought I would briefly update you regarding Michaels case. You may be aware his MRI showed necrotic lymph nodes, which were unexpected. TB quant gold negative as well as tumor markers (CEA, CA19-9, AFP and LDH). His CT CAP only identified the mesenteric x2 nodes which were necrotic with no other disease. I have arranged a PET CT, he may likely need a biopsy I have discussed his case with Professor Matthew Read who will likely perform this as its not amenable to CT guided biopsy.

Yours sincerely,

**A/Prof Chamara Basnayake**
Gastroenterologist
