Thanks for your most recent letter regarding Rebecca. It's good to hear she is doing well.

The main issue with Cosevalam is cost. 4g of Cholestyramine (one sachet) is equivalent to 1.25g of Cosevalam. The cost from compounding pharmacies is approximately $70 per week.

It's worthwhile trialling a lower dose of cosevalam to see if she tolerates this but the cost might be ~$17 per week (one 312.5mg tablet). It might be worth having a script on hand for travel.

I hope this helps

Yours sincerely,

A/Prof Chamara Basnayake
